## HOW TO SIGN UP

Ask a member of our team to help you get signed up today!

# 208.237.6453

It only takes 5 minutes!

### DID YOU KNOW?

An average check-up costs for one person is about \$288, which covers an exam, x-rays and cleaning. If you go the recommended twice a year that is \$576/year versus our single annual plan of \$279!

**With our Dental Savings Plan your check-ups are completely covered, not to mention all of the discounted rates on any procedure you need in the office.**

### DID YOU KNOW?

The average annual premium of Dental insurance is between \$400-\$500 per person according to NADP estimates. The average Insurance has a maximum payout of \$1,500/yr, plus an extensive waiting period before you can even use the benefit.

**With our Dental Savings Plan you pay about half the average cost for coverage, with no maximums, and no waiting period.**

### PROGRAM GUIDELINES

Terms and Conditions: Upon signing the contract for this In office plan, you agree to make a full 12 month commitment. If the 12 month commitment is broken, any and all discounts received during the contract term will be retroactively applied on the account. The guarantor will be responsible to pay back any discounts provided if the contract is terminated before the 12 month term.

How we can help  
you achieve your best,  
brightest smile.

#### **Cleaning**

Along with exams, we provide professional cleanings to remove plaque and tartar buildup from your teeth. This cleaning, done by a dental hygienist, goes beyond daily brushing and gets in between the teeth and under the gums to remove anything that brushing and flossing may have missed.

#### **Fillings**

When bacteria and tartar buildup remain on the teeth, they will cause tooth decay, which forms a hole or "cavity" in the tooth. We remove the decayed portion of the tooth and replace it with a filling to stop the advancement of the cavity and preserve the remaining tooth structure. These are done with tooth-colored resins that blend with the color of your tooth.

#### **Sealants**

A dental sealant protects the enamel of the teeth and provides an extra barrier between the teeth and sugary or acid substances. A thin layer of flowable resin material is placed into the grooves on the biting surface of tooth, then bonded to that tooth to provide protection from cavity-causing bacteria.

#### **Whitening**

Even with regular, proper teeth brushing, our teeth tend to yellow from coffee, tea, and acidic foods over time. We offer both in-office and take home tooth whitening to get your teeth to your desired shade of white. Unlike drug store whitening kits, our professional whitening process achieves the best results while still protecting your enamel.

#### **Implant and Crown Restoration**

Sometimes teeth become too broken down, and may be missing too much natural tooth structure to fix with a simple filling. These teeth may require placement of a crown for strength. We use the latest technology and materials in aesthetic dentistry to provide you with the strongest and best looking crown possible, that can quite possibly be completed in one day. If you are missing teeth there are a wide variety of technologies available to replace missing teeth, including implants.

#### **Sedation**

Many people get anxiety about going to the dentist. To help with your anxiety and help you achieve comfort, we offer nitrous gas, oral sedation, and IV sedation. If you are interested in any sedation options, ask us for more information to determine what option might be right for you and your procedure.

What our patients'  
have to say about our  
Dental Savings Plan:

"I really like the convenience of being billed monthly rather than having a large bill come at Christmas time."

— **Barrett B.**

"Compared to my other dental insurance options this Dental Savings Plan was cheaper and had no maximum out of pocket amounts."

— **Bill K.**

"I signed up and received my benefits the same day I had my work done. I am grateful that my dentist offers a Dental Savings Plan for those of us who are not covered by an employer dental plan."

— **Sarah H.**
